## About K. B. College, Bermo

Krishna Ballav College, Bermo was established in the year 1964 to cater the needs of the economically and socially backward, marginalized and un-noticed mass of Bermo region of Bokaro district. The sole reason behind this outstanding effort of the above-mentioned stalwart was to disseminate knowledge and learning among the children of coal workers and the downtrodden in general. The college was registered with the University Grants Commission under section 2(f) of the UGC Act, 1956, thereafter started to receive grants from the UGC. In 1980, the college attained its constituent status and became one of the constituent units of Ranchi University. In due course of time, it became one of the constituent units of Vinoba Bhave University, Hazaribag, when it came in its existence in 1992. It is the oldest college of Bokaro district and one of the Premier co-educational institutions of Binod Bihari Mahto Koyalanchal University, Dhanbad.

Department of Higher and Technical Education  
(DHTE), Government of Jharkhand

## INVITATION

Dear Colleague

Healthy Environment is vital requirement for our sustenance and survival. Environment has inherent link with the human society, cultural ethos, literature, education and development. The ongoing human developmental activities and added climate change have profound impact on the environment. The faster pace of developmental activities has resulted to the destruction of natural environment, overharvesting of natural resources and conflict in socio-political atmosphere. Increasing human population and unsustainable resource utilization have brought about unprecedented changes to environment led to climate change worldwide. A major part of the state of Jharkhand in the past and in the last few decades are facing severe environmental challenges by the over harvesting of natural resources due to faster rate of mining activities. Sustainable development is the only hope for managing our environment and economic growth and supporting livelihood to the local community and conserving peace and harmony of the society. Therefore, the conference is proposed to generate awareness among the stakeholders about the present status of environment, social challenges from deterioration of environment, transformation of socio-political atmosphere from the development and needs of the sustainable development in present will be discussed and will be communicated to the larger section of the society.

### Conference Theme and Focus Area

- ❖ Environment in developmental context
- ❖ Status of Environment in mining areas
- ❖ Climate Change and its impact
- ❖ Climate change and status of biodiversity
